Each page follows the layout of the layout.pug file, and each page consists of header, content, and footer. Every page has the same header and footer, and each page has its own contents.

Server Platform: Node.js

Email: The Nodemailer Module

Style: CSS, Bootstrap

Every page follows the style of the main.css file.

Style Guide

Body has 50px padding and the font is 14px. The web pages will use Lucida Grande font, but if it fails to find the font, Helvetica, Arial, and sans-serif will be used.

The text of , tags in <nav> tag will be located the center.

The color of <a> tags in tag is #d7a150(similar to mustard color), the font size is 30px, bold, and locates in the center. However, if the mouse is over the <a> tags, the color will change over 0.7 seconds.

Most of the pages have the container names div and in the div, there are dl, dt and dd tags. The contents of the dd tags indent 20px.

The table tag in the services.pug file, it follows bootstrap style.

On the 'Contact Me' page, form class, input class follows bootstrap style.
